

Embedding Videos

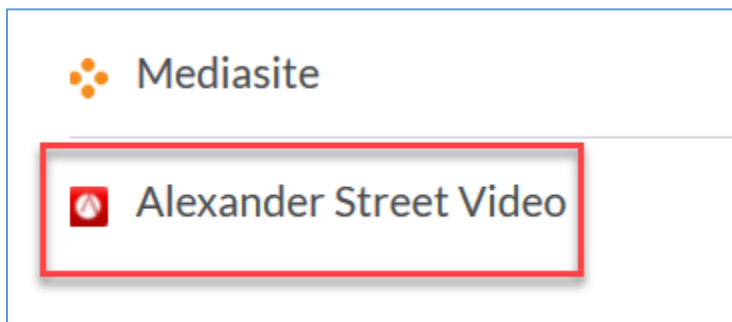

1. Go to **Content**, enter module in which you want to embed video, click **New** and select **Create File**.

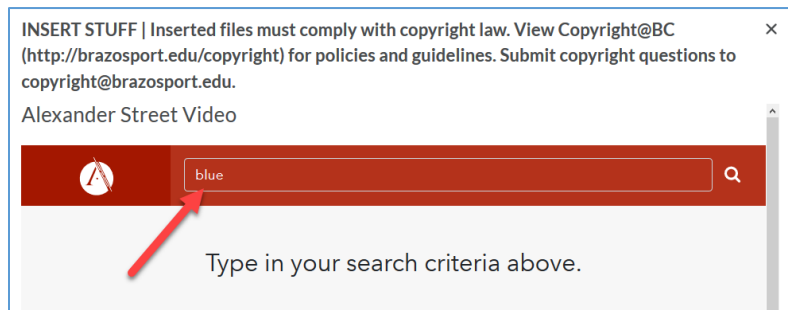

2. Enter name of file and click the **Insert Stuff** icon.

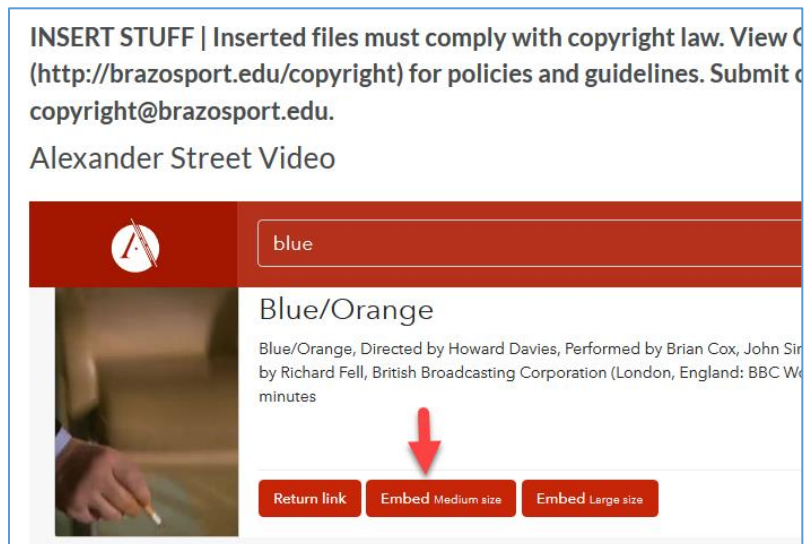

3. Scroll down and click on **Alexander Street Video**.

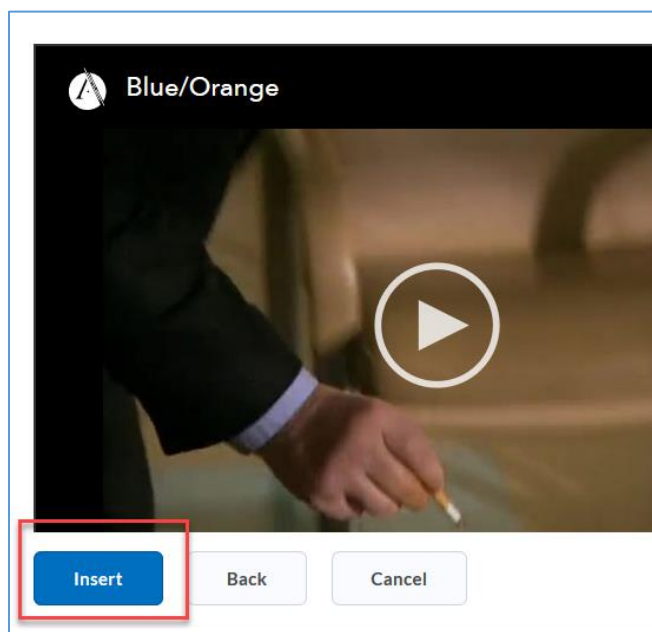

4. Type in video name in search box and click the **Enter** key.

5. Click **Embed Medium size**.

6. Wait for video to load and click **Insert**.

7. Click **Save and Close** when done.
